

DIPLOMAT

EDGE TECH®

Our Edge Tech® design features a 360° encasement that expands your sleeping surface while delivering edge-to-edge comfort and reinforced support, right to the very corners.

SUPPORTFLEX

SupportFlex™ is our premium foundation layer, engineered for full-body support, breathability, and durability. It cushions evenly, supports intuitively, and helps reduce heat and moisture for a consistently balanced sleep.

iPOCKET® 2000 SERIES

Experience disturbance-free comfort with our premium pocket system mattress, featuring 2000 individually pocketed springs. This advanced design ensures uninterrupted sleep by isolating movement, so you won't be disturbed if your partner shifts during the night. The unique pocket-on-pocket structure provides the ultimate support, adapting perfectly to the contours of your body for unparalleled comfort.

SNOWDROP™

Snow Drop's advanced ceramic-infused gel-memory foam enhances thermal conductivity, efficiently dissipating heat for a cooler, more comfortable sleep. Unlike traditional foam, it delivers premium comfort every night, seamlessly supporting our mission to help you live well.

FLUTED FLOATING BASE

Our luxuriously fluted bases are beautifully complimented with stylish legs. Our bases are also carefully engineered to provide excellent foundation support, ensuring that you get the most out of your luxurious mattress.
