FACT

BENEFIT

Dual sided mattress.

Firm, reconstituted foam, high density foam and fibre make up the sleep surface area and provide a luxurious feel.

Tempered sleep support system.

The Continuous Interlocking Coil system provides the mattress with stable spinal support giving it a gently firm feel and aids in offering a perfect sleeping posture all night.

Interlocking coils with dual directional response.

The sturdy Interlocking Coils correct your sleeping posture while you sleep as well as absorb motion, ensuring minimal to zero motion transfer to your sleeping partner.

Increased pressure distribution for max comfort.

The more pressure you apply to the Parallel Infinite Coil system the greater the upward response is, reducing pressure points.

No sagging edges - Perimeter edge support.

The border surrounding this mattress is made from a tough steel wire that ensure the mattress does not sag at the edges, reducing the body's tendency to roll.

Foam Encased

The edge of the spring unit is foam encased with reconstituted foam ensuring support and stability.

Luxurious knitted ticking

The luxuriously soft cover ensures a plush, comfortable and supportive feel that acts as an effective moisture guard.

Hygienic & Non-Toxic

The foam used in every Rest Assured mattress is made to be completely stable, non-toxic and hygienic.
